DIGITAL MARKETING TRACK

Influencer Marketing Plan

MilletBite · #SnackSmartHyd campaign

Item	Detail
Prepared by	Sadhanala Nischay Prasad
Programme	Digital Marketing Track — Task: Create an Influencer Marketing Plan
Tools	Instagram · YouTube · Google Sheets
Brand	MilletBite (sample Hyderabad D2C millet snack brand)
Budget / Duration	₹2,50,000 · 4 weeks
Date	October 2026

Contents: 1. Introduction · 2. Campaign Brief & Objectives · 3. Selection Criteria · 4. Influencer Shortlist · 5. Content Requirements · 6. KPI List · 7. Budget & Timeline · 8. Learnings & Conclusion

1. Introduction

Influencer marketing works when the right people speak to the right audience in an honest way. The goal of this task is to understand how such a campaign is planned: choosing creators with a clear, numbers-based method, setting objectives, writing a brief, defining content rules and deciding how success will be measured. The plan is built for MilletBite, a sample Hyderabad-based brand selling baked millet chips and cookies (₹49–₹199). The guiding principle throughout is that **audience relevance and engagement matter more than follower count**.

2. Campaign Brief & Objectives

Problem

Young people in Hyderabad snack often but believe healthy snacks taste boring. MilletBite is new and has low awareness.

Big idea — #SnackSmartHyd: “swap one snack a day”

Creators show a real moment where they usually reach for junk food (office 4 pm slump, exam night, post-run, kid's tiffin) and swap it for MilletBite. Followers are invited to post their own swap with the hashtag to win snack hampers. **Key message:** “Snack smart, not boring.” **Proof points:** baked not fried; jowar, ragi and bajra; no maida or palm oil; made in Telangana.

Target audience

- **Primary:** 18–34 year olds in Hyderabad — students, IT workers (Gachibowli, HITEC City, Madhapur), gym-goers.
- **Secondary:** parents aged 25–40 looking for better tiffin snacks.
- **Languages:** Telugu, English, Hindi.

SMART objectives (4 weeks)

Stage	Objective	Target
Awareness	Reach the core Hyderabad audience	8,00,000 unique reach
Engagement	Get people talking about and trying the idea	60,000 engagements · 4% avg ER · 150 UGC posts
Consideration	Drive traffic to brand page and website	15,000 profile visits · 8,000 link clicks
Conversion	Generate first orders	1,200 promo-code orders · 1.5x ROAS

3. Influencer Selection Criteria

Step 1 — Must-pass filters

- At least 40% of audience in India, ideally Telangana/AP.
- Active: 6+ posts in the last 30 days.
- Brand-safe: no hate speech, unsafe stunts or misleading health claims in the last 6 months.
- No fake-follower signs: sudden spikes, very low comments relative to followers, bot comments.
- No direct competitor promotion in the last 3 months.

Step 2 — Weighted scoring (1–5 per criterion)

Criterion	Weight	Scoring rule
Audience relevance (Hyderabad %)	30%	≥60% → 5 · 45–59% → 4 · 30–44% → 3 · 15–29% → 2 · <15% → 1
Engagement rate	25%	≥6% → 5 · 4–5.9% → 4 · 2–3.9% → 3 · 1–1.9% → 2 · <1% → 1
Content fit & quality	20%	Manual 1–5: natural fit with food/fitness/daily life; production quality
Brand safety	15%	Manual 1–5: tone, history, comment-section quality
Cost efficiency (₹ per view)	10%	≤₹0.50 → 5 · ≤₹1 → 4 · ≤₹2 → 3 · ≤₹3 → 2 · >₹3 → 1

Engagement rate = (avg likes + avg comments) ÷ followers, on the last 12 non-giveaway posts. Weighted score = Σ(score × weight). Creators scoring **≥ 3.5** are shortlisted. All of this is automated with formulas in the Google Sheet.

4. Influencer Shortlist

Note: creator names, handles and metrics are illustrative sample data created for this exercise, not real creator statistics.

Creator	Platform	Niche	Tier	Followers	ER	Hyd %	Cost (₹)	Score	Pick
Ananya Reddy @ananya.eats.hyd	Instagram	Food & cafe reviews	Micro	48,000	5.8%	68%	18,000	4.65	Yes
Karthik Rao @karthik.officelife	Instagram	Corporate humour	Micro	92,000	9.1%	63%	25,000	4.65	Yes
Deepika S @campus.diaries.hyd	Instagram	College life	Micro	36,000	11.6%	71%	12,000	4.65	Yes
Priya Nair @mom.of.two.hyd	Instagram	Parenting	Nano	9,500	9.6%	74%	6,000	4.60	Yes
Arjun Mehta @arjun.runs	Instagram	Running & marathons	Nano	7,800	8.7%	66%	5,000	4.60	Yes
Sneha Kothapalli Sneha's Kitchen Diaries	YouTube	Healthy recipes	Mid	320,000	1.1%	52%	60,000	3.75	Yes
Rahul Varma @fitwithrahul	Instagram	Fitness & nutrition	Mid	185,000	3.5%	41%	55,000	3.65	Yes
Vikram Shetty @vikramvlogs	YouTube	Travel & lifestyle vlogs	Macro	750,000	0.8%	18%	150,000	2.20	No
Trendy Hyd Offers @trendy_hyd_offers	Instagram	Deals & giveaways	Mid	210,000	0.4%	22%	30,000	1.65	No

Result: 7 creators shortlisted (2 nano, 3 micro, 2 mid) for ₹1,81,000 in fees. Two were rejected: **Vikram Shetty** (7.5 lakh subscribers but only 18% Hyderabad audience and 0.8% engagement — would use 60% of the budget on irrelevant reach) and **Trendy Hyd Offers** (2.1 lakh followers but ~8K views and 0.4% engagement, a strong sign of fake or inactive followers). The largest account was rejected — showing why follower count alone is a poor measure.

Creator	Role in campaign
Ananya Reddy	Hyderabad food voice — cafe-review audience tries new snacks
Karthik Rao	Office 4 pm slump skits for IT workers
Deepika S	Campus ambassador; launches the UGC challenge (highest ER)
Sneha Kothapalli	Telugu recipe authority on YouTube; long search shelf life
Rahul Varma	Fitness credibility — post-workout snack
Priya Nair	Parents and tiffin-box angle
Arjun Mehta	Hyderabad running community

5. Content Requirements

Creator	Deliverables
Ananya Reddy	1 Collab Reel (30–60s) + 3 Stories with link sticker
Karthik Rao	1 Collab Reel skit (30–45s) + 2 Stories
Deepika S	1 challenge-launch Reel + 3 Stories + 1 recap Story
Rahul Varma	1 Reel + 1 carousel + 2 Stories
Sneha Kothapalli	60–90s YouTube integration + 1 Short + pinned link
Priya Nair	1 Reel (tiffin box) + 2 Stories
Arjun Mehta	1 Reel (post-run snack) + 2 Stories

Mandatory in every post

- Disclosure: #ad / #MilletBitePartner + Instagram “Paid partnership” label (ASCI guidelines); YouTube paid-promotion box ticked.
- Tag @milletbite and use #SnackSmartHyd.
- Product visible in the first 3 seconds; vertical 9:16; subtitles on.
- At least one proof point; unique promo code (e.g. ANANYA10) and UTM link.
- Invite followers to join the #SnackSmartHyd challenge.
- No medical or weight-loss claims, no naming competitors, licensed music only.

Approval & rights

Concept approved within 24 h → draft shared 48 h before posting → one round of factual/compliance feedback → post at 1–2 pm or 7–10 pm IST → Insights screenshots shared 7 days later. MilletBite gets 90-day usage rights for reposts and partnership ads.

6. KPI List

Stage	KPI	Target	How measured
Awareness	Total reach (unique accounts)	800,000	Sum of creator post insights (shared screenshots)
Awareness	Total impressions / views	1,200,000	Reel plays + story impressions + YouTube views
Engagement	Total engagements	60,000	Likes + comments + shares + saves
Engagement	Average engagement rate	4.0%	Engagements ÷ reach, averaged across posts
Engagement	Cost per engagement (₹)	₹4.2	Total spend ÷ total engagements
Engagement	UGC posts with #SnackSmartHyd	150	Hashtag search on Instagram
Consideration	Brand profile visits	15,000	@milletbite Instagram Insights
Consideration	Link clicks (UTM tracked)	8,000	Google Analytics / Shopify, UTM per creator
Consideration	New followers on @milletbite	5,000	Follower count start vs end
Conversion	Promo-code orders	1,200	Unique code per creator in Shopify
Conversion	Return on ad spend (ROAS)	1.5x	Revenue from codes/UTMs ÷ total spend
Sentiment	Positive comment sentiment	85%	Manual tag of 200 sampled comments

Target logic: main creator posts average ~2.3 lakh views combined; Stories, second posts and Shorts take organic reach to ~4.5 lakh, and the ₹40,000 paid boost adds ~3.5 lakh. ₹2,50,000 ÷ 60,000 engagements ≈ ₹4.2 per engagement. 1,200 orders × ~₹320 average order ≈ ₹3.84 lakh revenue = 1.5x ROAS. Success means hitting at least 80% of targets in every stage.

7. Budget & Timeline

Line item	Amount (₹)
Creator fees (7 creators)	1,81,000
Product seeding & giveaway hampers	20,000
Paid boost of best posts	40,000
Contingency	9,000
Total	2,50,000

Week	Phase	Activities
0	Prep	Outreach, negotiation, contracts, hampers sent
1	Tease	Unboxing Stories, “guess the snack” polls
2	Launch	Main Reels + YouTube video live; hashtag challenge opens
3	Amplify	Second posts, Shorts, paid boost on top 2 posts
4	Convert	Promo-code reminders, UGC winners, recap

Week	Phase	Activities
5	Report	Collect Insights, fill KPI tracker, write learnings

8. Learnings & Conclusion

- **Relevance and engagement beat reach.** Micro and nano creators scored highest and cost the least per view.
- **Numbers expose fake influence:** high followers with very low views and comments is a red flag.
- **A tier mix works best:** nano for trust, micro for local reach, mid for credibility.
- **Plan measurement before launch:** unique codes and UTMs show which creator really drove sales.
- **Google Sheets makes it repeatable:** weights and inputs can change and the shortlist updates automatically.

This plan gives MilletBite a clear, data-backed way to choose creators, brief them, keep content compliant and judge success — the core skills of influencer marketing planning.
